#### BUT LITTLE CHANGE IN STOCK MARKET

It Remains About the Same as Last Week.

FEW PROMINENT STOCKS UP

Several of Them Largely Dealt in, but None Saved as Much as a Point of Net Gain - Granger Stocks Go Up.

NEW YORK, June 16.—The character of to-day's stock market remained the of to-day's stock market remained the same as that of last week. There were operations for a rise in a few prominent stocks, but they were not aggressively pursued and left no important net results. St. Paul, Missouri Pacific, Union Pacific, Canadian Pacific and the Atchisons were most largely dealt in. It will be seen that none of these saved as much as a point of net gain on the day, although Canadian Pacific rose at one time 1% over Saturday and St. Paul 1%. A number of the minor Granger stocks were lifted at different times, and the Chicago and Northwestern stocks both made 3 point advances. Late in the day, after the indifference of the general market to this leadership was demonstrated, there was an advance in the Readings. This proved equally inefficacious, and the market

closed dull and easy, considerably below the best. The movement in the western stocks, while obviously professional, seemed based on assumption of a favorable outcome for the corn crop and upon the argument of probable dividend increases. Nobody assumes that the Missouri Pacific dividend this week will be changed from the 2½ per cent. semi-annual rate, and the heavy outlays being made by Union Pacific are against the presumption of a present increase. But the example of the Chicago and Northwestern increase is an influential one and affects especially St. Paul. The buying of this group of stocks at the opening was sufficient to carry up the price in face of rather heavy London selling, induced by anxiety over the illness of the King of England. The leaders of the campaign for the advance profess to feel assurance that July 1st settlements will be effective without any stringency of money. The industrial department of the stock list was generally heavy. United States Steel stocks were slightly depressed by the making permanent of the injunction against the stock conversion and bond issue plan pending the appeal to the upper court.

There was a fair demand for bonds and prices were firm. Total sales, par value. \$2,465,000. United States coupons declined % per cent. and the old 4's advanced % per cent. on the last call.

The total sales of stocks for the day were 339,900 shares.

MONEY AND EXCHANGE—Money on call closed steady at 2½@3 per cent.; closing bid and asked, 2½@3 per cent. prime mercantile paper, 4½@5 per cent. Wisconsin Central 110% soon slipping lower point by point under fairly active selling for both accounts, based largely upon weak late Liverpool, cables and official reports of soaking rains over the Carollinas, Georgia and the eastern portion of Florida. Wall Street bear interests, and what appeared to be New Orleans bull operators, sold on the late forenoon break. Trading was active in a feverish way. Reports that spinners were not buying cotton in the south and a drop of 1-18d. In spot cotton in Liverpool greatly disturbed commission house longs here. Not until July had dropped to S.60 and August to 8.33 was there any semblance of a change for the better. Predictions that to-morrow's weekly crop weather report from Washington will be less favorable than that of last week, particularly as concerns the central and western belt, caused a quick turn of smaller shorts for cover, on which July jumped to S.65 and August to 833. But in the lat hour liquidation and bear pressure broke out afresh and prices once more worked downward. The market closed barely steady and net 5@15 points lower. not a sign of weeds. Why? It keeps the soil in a better condition for receiv-ing and retaining moisture; it aerates the soil, which is essential to the decomposition of plant food it contains.

Especially is cultivation necessary around young and recently transplanted plants. The difference between the growth

the deal is often remarkable and favore the former method.

The manner of cultivation is important. Some men will use the hoe so that the top layer of soil is cut off clean and gathered up with the weeds that may have been the chief object of the hoeing. The

the Market Will Sell Higher. Stocks in the Hands

in yesterday's trading, although some-what irregular. The leaders were St, Paul and Misouri Pacific, and both scored ma-terial advances during the day. Union Pacific was also strong. In the afternoon there was a sharp rise in Reading, one sale of 2,500 shares at 65 being scored. The second preferred jumped a point, and the first preferred was also higher. It was

saie of 2,500 shares at 56 being scored. The second preferred Jumped a point, and the first preferred was also higher. It was supposed at the time that this rise was due to some change in the strike situation, but no news to that effect was forthcoming, and Reading lost a part of its gain. Other stocks were disposed to go up in sympathy, but before the market closed there were evidences of profit-taking, and closing prices were below the best of the day.

THE SOUTHERN STOCKS.

There was very little trading in Norfolk and Western and Chesapeake and Ohio, although both were better. Southern preferred was more active yesterday than for some time past, and one sale was reported at 55%. The Wabash issues were also strong, particularly the debenture B's, which sold fractionally above 78.

CUTHBERT MILLS' VIEW.

Cuthbert Mills, the financial writer of the New York Tribune, who is one of the most intelligent and most conservative of the New York writers on financial topics, takes a very hopeful view of the market. He says

"The volume of business on the exchange continues small—distressingly small to commission houses; and were it not that the prospects for the second half of the year are bright, there would be reason for feeling blue. These prospects were dwelt upon at some length last week; being, briefly, the excellent crop outlook and the better conditions abroad. "In the market now there is a quiet absorption of stocks, mainly of an investment character. It prepares the way for livelier work later. The proof that the sound has been afforded by its firmness of late in the face of many things which should have depressed it. Had the position not been sound, the serious industrial disturbance should alone have sufficed to force an amount of selling which would have put prices many points below the present level.

A GOOD SIGN.

"That these disturbances did not have such an effect, even when aided—in respect to their depressing influence—by an extreme dullness, which extended to the foreign markets also, thereby indicat

FOR SALE. Good Place for Small Sum.

Sixteen per cent. POLLARD & BAGBY. The general gardening public does not always recognize that cultivation of the soil is not alone for the purpose of keeping down weeds and giving a good ap-pearance to the beds. Farmers harrow their corn and potatoes when there is

of cultivated plants and those not

been the chief object of the hochg. The surface remaining will be hard and smooth—quite the reverse to what it should be. Cultivation should mean a stirring of the surface, making it fine. If this be done in loamy soil shortly after a rain, it will not break into large lumps.—Mechans' Monthly for June.
